Never Never Give Up

About me: Ing. Martin Dzama

Alumni of Slovak University of Technology in Bratislava, Faculty of Materials Science and Technology in Trnava

My Life motto: „Never, Never Give Up.”

Bio:

- The first Slovak to hold the position of general director and executive of the Trnava-based car company Stellantis.
- Long way since 2004 at the PSA Group plant:
 - working as a job technician in the assembly operations department,
 - later becoming the leader of the technical group.
 - my tenacious work brought me to the position of top manager, but it did not become overnight.
- Professional life pillars::
- 1st - good technical, economic and managerial foundation. And it was this foundation that studies at MTF gives to the students.
- 2nd - to have the desire. To have the desire to work on yourself, to constantly improve and progress.
- 3rd - to have courage. Have the courage to do new, challenging things and look for innovative solutions. Studying at MTF but also working in the automotive industry is demanding, you have to have courage and you have to be demanding first of all on yourself.
